

Alternative Gifts 2016

MBF

Medical Benevolence Foundation

*"...and live
in love as
Christ loved
us and gave
himself up
for us..."*

Ephesians 5:1

It is our hope that in working with local artisans like 25-year-old Fabienne Jean Baptiste to bring you these beautiful bracelets, we can help her improve her quality of life.

Fabienne and her family were displaced from their home after the earthquake hit Haiti in 2010. They lived in a tent city where she learned how to make jewelry and began selling the bracelets to both locals and tourists. She has since taught both her brother and sister how to make them out of things lying in the street like cardboard, paper, and cereal and cake boxes. Along with her part-time job, this is how Fabienne makes ends meet.

Thank you from both MBF and Fabienne for choosing an alternative gift and helping to improve a life.

MBF (Medical Benevolence Foundation) is a Christ-centered organization dedicated to transforming lives by building sustainable health care systems in partnerships with indigenous health care organizations in developing countries. Our vision translates into a set of medical ministries that serves those in critical need around the world.
